The Engineering Design Process:

Problem/ Challenge:

Your challenge today is to create a car that is powered only by a balloon.

| Research: |
|--|
| Write down 3-5 things you already know about cars. |
| |
| |
| |
| |
| |
| |

| ΡI | an | /De | sign: |
|----|----|-----|-------|
| | | | |

| Plan/Design: | | | | |
|---|--|--|--|--|
| Draw a picture of the design of your balloon car. Make sure to label what each part is made of. | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |

Reflect:

If you were to revise your design, what is one thing about your design that you would keep and one thing you would change?
