

Employer Evaluation of Co-op students 2008 – 2014

Students enrolled in the Department of Construction Management are required to accumulate a minimum of 600 hours of work experience prior to graduation. This is achieved through paid co-op employment, supervised by NKU CMGT faculty through logs, site visits and interviews, and an employer report. Employers are asked to evaluate their hired co-op students on several criteria measuring their technical competence and their general attitude and performance. The graphs below show the responses from 164 surveys of co-op employers.
