

## Role Competency Development Template (Baseline)

Date:  Department:  Role:

Competency 1:

Competency 2:

Competency 3:

Competency 4:

Competency 5:

The purpose of this document is to establish a baseline for a role's competencies. Refer to the [Competency List](#) to view a listing of competencies and descriptions from TalentED to select how an employee is to model the behavior/skill and evaluated for work performed. Recommendation is to consider roles with same title and have the same competencies established when the work is similar. A calibration session may be beneficial with other supervisors with same role(s).
