### **Why do I want to be a Staff Regent:**

It has been an honor serving as the Staff Regent over the last three years. As a university, we have experienced a pandemic, a \$20 million budget deficit, and hiring a new president. I am so grateful to be able to represent our amazing staff during these times and to advocate on their behalf. I hope to continue to

collaborate with my fellow colleagues to do the work that needs to be done and ask the hard questions to ensure a fair and equitable campus for all.
