1. Minutes from 2-15-24 approved.

2. Chair Report:

   - Richard forced approval two forms that had simple typo fixes, one also had an SAP type change: https://nku.curriculog.com/proposal:6594/form, https://nku.curriculog.com/proposal:6595/form
   - Queried members: Can we approve some graduate items on April 4 which will go to grad council on April 11 (that is, can we approve these items out of order?) Committee agreed to do so.
   - Fox now has access to save to the UCC web site and plans to post the SLO files there.
   - Some of the new course forms were submitted without a bibliography of required readings. Members were queried regarding the inclusion of required readings on new course forms. It was agreed that all new course forms provide a bibliography of required readings or a justification of why readings would not be needed/used.
   - Next meeting April 4.

3. Curricular items (see below, added Human Resources Management BSBA 3/18/24; this program change item from TAR/DAN has yet to be added to the agenda but I'm hoping to do that today, 3/19/24, this goes with TAR 415, which is already on the agenda but the program change specified on that course change form needed to be moved to a program change form)

4. New business:

Question: should we permit the recording of and/or generation of transcripts for our meetings for the purpose of generating a transcript? if so, should we record via zoom and/or use zoom for the transcripts or permit generative AI systems? (this arose because one of our attendees used a generative AI at our last meeting and also used one at the general education committee meeting and some of the senate exec committee had concerns about what the transcripts might be used for and where they might be stored).

- After discussion it was agreed to add a policy to the bylaws that no random AI apps could be used for recording or close captioning meetings but instead we would rely on Zoom recording and transcript files and close captioning.

Adjournment

Respectfully submitted Kimberly Allen-Kattus
