\blacksquare MAT194: Undergrad Research Evaluation Form

N	а	m	ρ	•

Presenter Name:

a.	Take a moment to imagine that you are asked to do the research described (or something like it, with perhaps a different focus – maybe you've already done some research): what do you think: Impossible? Fun?
b.	What would be your major concerns about undergraduate research (share yours if you've done some)? What would it take to get a faculty member to convince you to do research?
c.	What question would you like to ask our speaker, now that you are imagining yourself in their role?
d	Even if undergraduate research seems like it might not be for you, what advantages might it offer you on your resume?
